PROJECTS

Portfolio [Source code]

Developed a responsive portfolio website using HTML, CSS and Javascript. The website shows further information about me and my achievements.

DSA prepration sheet [Source code]

Created a responsive website for DSA questions using React, Bootstrap. The website has user friendly interface and has question categorised into subtopics for better user experience.

Weather-App [Source code]

Created a website using react and bootstrap using weather API. The website gives real time weather information of any selected place using the weather API and gives temperature and other information.
